### **Daffodil Carlton**

The Daffodil Carlton is a large-cupped tremendous, solid golden-yellow daffodil that features large flowers. This stunning produces large two-toned flowers upon green stems. Daffodil Carlton is easy to grow and has a lovely sweet scent. The long stems grow up to 15-19" (40-45 cm) tall, which makes this daffodil perfect for cut flowers. Order daffodil wholesale bulbs at De Vroomen and we provide a special bulk price.

### **Popular Spring flower Daffodil Carlton**

The yellow daffodils can't be missed in every spring border, bedding or patio containers. When the winter slowly fades, daffodils show their faces. That's the natural sign of incoming Spring. Daffodil Carlton grows big, blousy traditional cups with a trumpet. Since the blooms are so robust and live long, Daffodil Carltons are grown for the cut flower trade. The vigorous flowers are also perfect for naturalizing, they easily form a carpet of yellow spring flowers within years.

### **Things you should know about the daffodil Carlton**

Before gardeners start planting Daffodil Carltons, they should keep a few basic rules in mind. Before planting, follow these guidelines.

- Plant the daffodil bulbs in fall, around October or November
- Plant the flower bulbs about 4-5" (10-15 cm) deep
