### **Daffodil tête à tête**

The wholesale daffodil tête à tête is one of our most popular dwarf flower bulbs available at De Vroomen. The flowers grow only up to 6" (15 cm), and therefore are ideal for planting in patio containers or at the front of the border. The deep golden yellow trumpets appear in early spring, from March till April. Remarkable with this daffodil is that each stem bears up to three flowers per stem.

### **How to plant Daffodil tête à tête**

Before planting daffodil bulbs like Daffodil tête à tête, keep these simple steps in mind:

- Plant Daffodils tête à tête narcissus in early Autumn, in September, October, November
- Plant the daffodil bulbs in well-drained soil.
- The daffodil flower bulbs love a sunny or semi-shady place
- Daffodil tête à tête's bloom from March till April

If gardeners follow these easy steps, De Vroomen guarantees the wholesale bulbs

### **How does Daffodil tête à tête look?**

These popular daffodil flower bulbs can become 6-8" (15-20 cm) tall, which makes these flowers perfect for the front position of the border, greenhouses, cottage gardens, cut flower garden and front yards. The cheerful yellow flowers including yellow trumpets form the best sign of the awaiting Spring in a winter grass field. Despite the fact that Daffodil tête à tête form excellent garden plants, these versatile flowers also last long as cut flowers in a vase.
