About the Sarah Bernhardt peony

The enormous flowers of the Sarah Bernhardt peony bloom outrageously in late spring to early summer. The flowers are 8"; (20 cm) wide and grow up to 2-3 feet (60-90 cm). The flower blooms heavily but, sadly, just for a short period. The bloom period is about 7-10 days long. Enjoy the peony flowers while they last; otherwise, you have to wait a whole year. To extend the blooming season of peonies, plant different peony sorts in the border. Peonies know different bloom seasons, so plant wisely, and enjoy a long growing season.
